

FROM COLUMN TOP TO TRAY BOTTOM WE EARN OUR STRIPES: TIGER TOWER

**It's not just what we do—
it's how we do it.**

For Tiger Tower, our entire world is towers, vessels, drums and trays. After completing 320+ projects in the past five years alone, we've given new meaning to words like responsive and innovative.

For retrofits or modifications, scheduled or emergency, Tiger Tower Services is all over it. Engineering services, design analysis, integrity analysis, re-rating, welding—all designed to help ensure safer, more cost-effective turnarounds every time. No wonder Tiger continues to tower above them all.

**How can we earn
our stripes for you?**
